Steve,

I just looked at the flow charts again, they are for NSPS OOOO, not OOOOa, which is why we are confused.

Each well affected facility fracked after 8/18/2015 is subject to NSPS OOOOa.

Feel free to call if you have applicability questions for specific sources you want to talk through.

Thanks,

Alex

Alexis, sorry for not responding right away on this one. Yes, the wells are fracked, but it the flowchart seems to show that only wells fracked between 8/23/11 – 9/18/15 are affected. That is why I'm confused. I went over the flowchart about 20 times but I must still not be reading it correctly. It sounds like my original thoughts are correct though judging by your comments. In your understanding and speaking generally, all new oil and gas wells that are hydraulically fractured are OOOOa affected in terms of completions reporting, correct?

Are the wells fracked? That's what I think triggers OOOOa?

Alexis,

Thanks for sending! This first couple of boxes on the well completions flow chart seem to indicate pretty clearly that wells spud after 9/18/2015 are not OOOO/OOOOa gas well affected facilities. It looks like the only gas well affected facilities are gas wells that were put or re-fractured between 8/23/11 – 9/18/15. Is that basically correct (given of course all the requisite caveats)? This would be news to me, I thought OOOOa was affecting new facilities!

Hi Steve,

I did not forget about you...

Please find a well site and storage vessel flow chart(s) that you might find helpful.

Thanks and happy holidays,

Alex

Alexis,

I filed an LDAR Annual Report yesterday to that inbox you sent. Thanks for your help! I've got some questions on well completions compliance. I've read through the regs and everything I've seen, but the CFR can get pretty tough to follow and I've found it is best to just ask for help or guidance. I'm not too familiar with what all is required but I'm hoping to maintain full compliance regarding the well completions aspect of OOOOa. Do you have a guide or bullet points or presentation or anything that would help out with that? Or, maybe just time for a phone call or a meeting in the next couple of weeks or beyond?

Thanks again!

Steve,

That spreadsheet works but could you please send to r8airreportenforcement@epa.gov instead please?

Thanks,

Alex

Subject: OOOOa

Alexis,

I used to work for a company called CGRS (shockett@cgrs.com) and have recently changed jobs. I was on your list of people to contact regarding OOOOa and whether or not we had solid information on the status. I just wanted to get in touch with you and let you know about my new email address.

Also, a colleague of mine at H2E, Kelly Kinsman, has been in contact with you recently regarding the OOOOa LDAR annual report submission. I've been getting information from her and I just wanted to confirm everything with you. I plan on submitting on behalf of one of my clients, Ward Petroleum. I've attached the reporting template that I found online. Am I correct in understanding that I can fill this out for all affected facilities, attach all LDAR reports for the affected facilities, and submit via email to r8completions@epa.gov, in order to fulfill the annual report requirement with a due date of 10/31/17?

If you can confirm, then I will plan on going this route. Thank you in advance for your help and hopefully hear from you soon!!!
